Works for me, deferring to Shaun. I would delete "that is."

Hi David, wonder if you all would have revised text soon? Dana Tulis is encouraging us to get the draft document out for tomorrow's meeting ASAP. Would you have proposed revision to the text about private well monitoring soon? Note that I've added "location" per ORD comment

Hi Dana, the clean version attached to email I just sent (Sandie Spence's email from 4pm Friday) accepted all edits in the marked-up version. We left in the yellow highlights in the "clean" version so OSRTI reviewers could see changes from a version they reviewed earlier on Friday. So we can take out the yellow highlight and send around a draft final version, once we get the edits Region 8 wants to make to the sentence in the new section about private well monitoring.

Thanks Tom, so are you accepting the mark-ups, you will need to share with folks for the call tomorrow? There are two mark-ups, so I am not clear what is the most current, sorry for the back and forth.

Subject: GKM Conceptual Monitoring Plan - Draft Document

Hello All, Attached please find the draft GKM Conceptual Monitoring Plan reflecting the most current changes for the Friday, 2:00 pm EST call. Attached is a clean copy with some sections highlighted for emphasis to aid in your review. Also, attached is the red-line strike out version (which is difficult to read and follow but identifies the comments from OSRTI and responses). Finally, two maps that illustrate the sampling locations are included and will be inserted into the document once it is final.

Talk to you tomorrow,

Sandie

Subject: Advance notice: GKM Conceptual Monitoring Plan coming your way

Folks, this evening you'll receive the revised plan, ready for your reading when you arrive in the morning. We think you should see it again since it's undergone additional changes from the version previously concurred on. A big thank you to Mike Scozzafava, David Charters and Larry

Zaragoza (and perhaps others) in OSRTI for their prompt review and resolution to their comments. It's been a challenge to balance the variety of opinions and sometimes conflicting comments, but we think we've struck that balance as best we can.

On Friday's 2:00 Eastern time call we'll verify concurrence from the Regions and HQs offices.

R6 has noted its interest in discussing GW monitoring, so we should expect that on the call.

Talk to you soon.

Bert Garcia

Director, Ecosystems Protection Program
